Why should you choose solar power company in Myanmar?

To offer outstanding sustainable solar products and services with affordable price in Myanmar. To be a Power Generating of Southeast Asia in the sustainable energy sector, recognized for our commitment offering the specialized services to our customers.

Does Myanmar utilize solar energy?

Myanmar has high solar irradiation levels in many areas, but no large-scale solar systems have been installed due to the largely mountainous terrain, protected areas, and limited grid system, which weaken the energy potential from this source.

Will Myanmar build solar power plants?

On the occasion, Secretary of the State Administration Council Lt-Gen Aung Lin Dwe said as Myanmar is rich in renewable energy sources such as hydropower, solar and wind power, it will make full use of the advantages

provided by the nature and build solar power plants.

What is the primary energy supply in Myanmar?

Approximately two-thirds of Myanmar's primary energy supply comes from biomass—firewood and charcoal—and rural areas for the most part lack electricity. The government, which took office in March 2011, has introduced sweeping political and economic reforms fundamental to development.
