National standard for lithium battery site cabinets

Overview

With the rapid development of the energy storage industry, the national standard Technical Specification for Prefabricated Cabin Type Lithium-Ion Battery Energy Storage System (GB/T 44026 - 2024) was officially released last year as the first national technical specification in this field. Are lithium battery storage cabinets safe?

Lithium battery storage cabinets have been available on the market for years; however, the lack of clearly defined testing procedures has led to consumer uncertainty and, in the worst case, serious safety hazards.

What's new in China's Lithium-ion battery industry?

BEIJING, June 19 -- China's Ministry of Industry and Information Technology on Wednesday unveiled revised guidelines for the lithium-ion battery industry to further strengthen standardized management and promote the high-quality development of the sector.

Should lithium-ion batteries be built on farmland?

No lithium-ion battery projects should be built on permanent basic farmland, "redline areas" for ecological protection or other areas where the construction of industrial enterprises is prohibited, the guidelines state.
