# Netherlands Gravity Energy Storage Power Station

## Overview

---

Which battery storage facility is built by RWE in the Netherlands?

The battery storage facility in Moerdijk is the second battery storage facility to be built by RWE in the Netherlands: the company started construction of a battery storage facility in Eemshaven at the beginning of the year with an installed capacity of 35 MW and a storage capacity of 41 MWh.

Is RWE's battery energy storage system inertia-ready?

Inertia-ready: RWE's innovative battery energy storage system in Moerdijk starts commercial operation RWE's first inertia-ready battery energy storage system (BESS) has started commercial operation on the site of the company's power plant in Moerdijk, the Netherlands. It is the first of its kind in operation in the Central European grid.

What is the Moerdijk battery storage project?

The Moerdijk battery storage project is a strategic component of the system integration solutions for OranjeWind, a collaborative offshore wind project between RWE and TotalEnergies.

Why is RWE activating its first battery in the Netherlands?

Nikolaus Valerius, CEO of RWE Generation, commented: "The activation of RWE's first battery in the Netherlands here at Eemshaven represents a significant milestone in our ongoing commitment to strengthening the country's energy infrastructure while expanding our green energy storage portfolio.

Does gravity Energy BV receive funding from Netherlands Enterprise Agency?

2021 Gravity Energy BV receives funding by Netherlands Enterprise Agency. 2019 Gravity Energy first price Move Together Award. ~ Jury: 'The story is credible, the approach promising and the first results read as a boy's book'.

What is a battery energy storage system (BESS)?

RWE has officially commissioned its first large-scale Battery Energy Storage System (BESS) in the Netherlands at the Eemshaven power station. With a total capacity of 35 megawatts (MW) and a storage capacity of 41 megawatt hours (MWh), the system will be crucial in balancing the power supply and demand within the Dutch electricity grid.
