New Zealand solar panels solar panel sales

Overview

How much does a solar system cost in New Zealand?

In New Zealand, the average cost of a solar system for a home is around \$10,000 without a battery and \$20,000 with a battery. What does a home battery do?

When your solar system produces excess energy to what you are consuming on-site, it will charge your home battery.

Do solar panels work in New Zealand?

Absolutely! New Zealand has abundant sunshine and generates between 1,700 and 2,100 sunshine hours annually. Some areas, like Nelson and Gisborne, receive as much as 2,400. Solar Panels don't require sunshine; they require daylight, so Solar Panels work year-round, even in the lower South Island.

Where can I get a solar loan in New Zealand?

We work with leading finance partners, including Gem Visa, Q-Mastercard, and Purple Visa. These options enable you to get started immediately. Solar loans are available through major New Zealand banks, including Westpac, ANZ, ASB, BNZ, and Kiwibank.

How much does a solar power system cost?

Average Price For A Solar Power System: The typical solar power system size from our dataset was a 7kW, the average cost for this system size was \$16,492. **Battery Systems Prices:** The average battery cost is \$1,249.79 per kWh, with smaller systems offering affordability and larger systems offering better value per kWh.

Do solar panels still produce power?

Yes the solar panels will still produce power however the solar inverter

requires you to be connected to the grid for the inverter to operate and provide power to your home. This is a safety mechanism to protect appliances at your property for the safety of network maintenance personnel.

Are solar panels a good investment?

With Solar, you can gain energy independence, reduce costs, and even turn your roof into a money-making asset by generating more energy than you use. Solar panels allow you to harness free energy from the sun, significantly reducing your power bills. Over time, the savings can offset installation costs, making solar a smart long-term investment.
