# New solar inverter in Finland

## Overview

---

The three new microinverters – IQ8MC™, IQ8AC™, and IQ8HC™ – feature a peak output power of 330 W, 366 W, and 384 W, respectively, and are designed to seamlessly pair with a full range of solar modules up to 560 W DC.

The three new microinverters – IQ8MC™, IQ8AC™, and IQ8HC™ – feature a peak output power of 330 W, 366 W, and 384 W, respectively, and are designed to seamlessly pair with a full range of solar modules up to 560 W DC.

Solarigo is a specialized manufacturer and service provider of renewable solar energy solutions, including the construction of solar parks and the design of intelligent solar power systems. The company offers long-term contracts for solar power, allowing clients to benefit from competitively priced.

This article presents the top 7 inverter manufacturers in Finland and the suppliers that dominate the market to support the country's energy transition targets. Finland is renowned for its world-leading education system. This is also manifested in the development of technology that helps Finnish.

The announcement of a massive, growing solar plant in Finland near the Arctic Circle will not only bring clean, reliable energy to the area on a huge scale but will also prove the viability of clean energy integration. According to Renewable Energy Magazine, the solar company Sungrow is supplying.

Simo, Finland, June 18th, 2025 – Sungrow, the global leading PV inverter and energy storage system provider, has supplied 180 units of their SG350HX string inverters to a 70 M . Simo, Finland, June 18th, 2025 – Sungrow, the global leading PV inverter and energy storage system provider, has.

Solarwatt strengthens its relations with Finland's biggest solar distributor. VI.  
Finland is constructing a solar farm in a city with just 3.5 hours of winter. VII.  
ABB wraps up an agreement with FIMER on the sale of a Solar inverter VIII.  
Fortrum secured a contract from S group within Finland. IX.

Sungrow, a global leader in PV inverter and energy storage system (ESS) solutions, has supplied 180 units of their SG350HX string inverters to a 70 MWp solar power plant in Simo, Lapland. The park will be one of the largest in Finland—marking it also as one of the world’s northernmost large-scale.
