# Nordic first energy storage project

## Overview

---

The project will add 70 MW/140 MWh of storage capacity to SEB Nordic Energy's Finnish portfolio, which already includes wind and hydropower. Located in Nivala Municipality in Finland's Ostrobothnia region, the project is expected to be completed in 2026.

The project will add 70 MW/140 MWh of storage capacity to SEB Nordic Energy's Finnish portfolio, which already includes wind and hydropower. Located in Nivala Municipality in Finland's Ostrobothnia region, the project is expected to be completed in 2026.

SEB Nordic Energy's portfolio company, Locus Energy, in collaboration with Ingrid Capacity, will build the largest battery energy storage project in the Nordics. The project will add 70 MW/140 MWh of storage capacity to SEB Nordic Energy's Finnish portfolio, which already includes wind and.

Merus Power, together with Alpiq, has achieved a historic milestone for the Nordic energy market: the delivery of the region's first grid-forming battery energy storage system (BESS). The 30 MW / 36 MWh system, located in Valkeakoski, Finland, is not only a technological breakthrough but also a.

A new battery storage project is nearing completion in Borup, Denmark, a region just north of the country's capital city, Copenhagen. According to Renewable Energy Magazine, energy company Nordic Solar has signed a credit agreement with Danish bank Ringkjøbing Landbobank to bring the energy-storage.

Yesterday, Nordic Solar officially inaugurated its first battery energy storage system (BESS) park in Denmark. The facility, located in Borup in the Municipality of Hillerød, marks a great milestone in the company's strategy to integrate battery storage into its portfolio of solar energy projects.

On the morning of September 29, 2025 local time in Sweden, the Rosersberg 4MWh energy storage project, jointly invested by China Gas, Linyang Energy, and Suntrade, officially started construction. The CEO and management of Suntrade, Yuan Hairong, General Manager of Linyang Energy's Photovoltaic.

SEB Nordic Energy's portfolio company Locus Energy, in collaboration with Ingrid Capacity, proudly announces the groundbreaking of one of Finland's largest battery energy storage system (BESS) in Nivala Municipality, Northern Ostrobothnia. After the start of commercial operations in 2026, the.
