Weekly spot price report for 182mm modules will be based on the 182\*182-210mm format from June 2024 onwards due to the slim price gap among varying formats. Prices for Chinese project will be prices for TOPCon modules instead of PERC from April 2024 onwards. BC module prices in China will be added.

In a weekly update for pv magazine, OPIS, a Dow Jones company, provides a quick look at the main price trends in the global PV industry. From pv magazine Global U.S.: The spot price for TOPCon utility-scale modules DDP US rose this week 0.35% to \$0.285/W. On a forward-looking basis, OPIS is.

Every month we publish a current price index on the development of wholesale prices of solar modules. In doing so, we differentiate between the main technologies available on the market. Since 2009, pvXchange has provided a unique price index for the European market, which has become an invaluable.

Platts, part of S&P Global Commodity Insights, has observed strong interest in transparent solar module pricing following the exponential growth in the manufacture, trade and installation of solar modules, also referred to as solar

panels, globally. What solar module prices are assessed?

Platts.

The report examines the capacity and market value of the PV modules market, categorised by technology, for both historical (2020-24) and forecast (2025-2030) periods. It also analyses the capacity and value of the PV inverters market based on consumer segments and outlines the overall market value.
