Portable mobile small communication base station EMS

Overview

What is a GMRS mobile base station?

Power up GMRS two-way radio base stations across a disaster response, farm operation, or neighborhood network for reliable communication that'll instantly reach everyone all at once. Power up your communication with Midland Radio's GMRS portable mobile base stations. These are ideal for communicating with or without radios of any model.

What is included in a base station?

This base station is assembled with everything needed to work immediately, including a mobile two way radio, antenna, and speaker microphone. Digital technology offers enhanced voice quality, range, and battery life and the ability to communicate with existing analog two way radios.

What is a digital base station?

Digital technology offers enhanced voice quality, range, and battery life and the ability to communicate with existing analog two way radios. This base station operates on 16 channels and is available in UHF or VHF. This base station can be programmed to work with most two way radios.

What is APX transportable base station?

The "mouse-hole" exit for a power cable allows for covert closed case operations. Engineered with top panel quick connections for efficiency, the APX Transportable Base Station is the ideal solution for federal agencies and first responders on the move. Aluminum lockable suitcase makes for convenient transportation.

What types of base stations are available?

This base station is available in several variations, including frequency band (UHF and VHF) and power output (25 Watt or 40/45 Watt). You will need to select which version you want before adding the product to your cart. See the

part number for each version below:.

How many channels does a base station have?

This base station operates on 16 channels and is available in UHF or VHF. This base station can be programmed to work with most two way radios. We will reach out to you to confirm your programming before shipping your order.
