# Portugal s new solar power plant

**SMART GRID & HOME**

## Overview

---

EDP has announced plans to construct a large-scale solar power plant in the Alentejo region. This ambitious project, which involves an investment of €115 million, aims to generate 243 megawatts of power, contributing significantly to the country's renewable energy goals.

EDP has announced plans to construct a large-scale solar power plant in the Alentejo region. This ambitious project, which involves an investment of €115 million, aims to generate 243 megawatts of power, contributing significantly to the country's renewable energy goals.

Neoen has opened the largest solar park ever built in Portugal. By TPN, in News, Business, Portugal, Environment · 05 Jun 2025 · 4 Comments With a capacity of 272 MWp, the park is made up of two contiguous solar plants — the Rio Maior Solar Power Plant (204 MWp) and the Torre Bela Solar Power Plant.

The Cerca photovoltaic plant begins operation, delivering the renewable capacity assigned to EDP Renewables in Portugal's first solar energy auction. The project has a 202 MWp capacity, sufficient to power nearly 100,000 households. EDP now owns 540 MWp of solar capacity in Portugal, a technology.

EDP has announced plans to construct a large-scale solar power plant in the Alentejo region. This ambitious project, which involves an investment of €115 million, aims to generate 243 megawatts of power, contributing significantly to the country's renewable energy goals. The proposed solar power.

Governments around the world are ramping up their efforts in a bid to reduce the use of fossil fuels for the benefit of the environment – and solar power is among the alternatives with the greatest potential. II. Central Solar Fotovoltaica Ourika!, Ourique III. EDP's Alto Rabagão Dam Solar Plant.

The Largest Solar Power Plant in Portugal: A Milestone for Sustainability and Energy Transition Herdade da Torre Bela, in Azambuja, hosted the largest photovoltaic solar power plant built in Portugal, with an installed capacity of

272 MWp and capable of supplying 110,000 homes. The solar park.
