Portugal s outdoor communication power supply BESS equipment

Overview

Does Portugal support battery energy storage projects?

Portugal has awarded grant support to around 500MW of battery energy storage system (BESS) projects, using EU Recovery and Resilience Plan (RRP) funding, a bloc-wide scheme that has supported energy storage across the continent.

Who is constructing a Bess project in Portugal?

A 5MW/20MWh BESS project Powin and Hitachi deployed for Galp in Portugal. Image: Powin / Hitachi / Galp. Oil, gas and renewables firm Galp has announced construction on BESS projects in Spain and Portugal using equipment from inverter and BESS firm Sungrow.

What is Bess technology & how does it work?

The centre centralises real-time management of photovoltaic parks, energy storage units and industrial consumption, maximising the value of the energy produced, Galp said. The BESS technology is being provided by China-based firm Sungrow, specifically its PowerTitan 2.0 solution. The projects will include grid-forming inverters.

Does greenvolt have a Bess project in Portugal?

Greenvolt and Galp have both deployed 5MW BESS projects in Portugal in the past. In eastern Europe, Moldova is in the process of completing a bidding process for the procurement of a 75MW BESS and 22MW internal combustion engine (ICE) project, called the Moldova Energy Security Project (MESA).

How will a smart energy system contribute to Portugal's climate goals?

The planned investment will fully contribute to the Portuguese climate goals by enhancing intelligent energy systems and their storage. This initiative aims to increase the capacity and flexibility of the national public grid, optimising the electrical system to handle the expected rise in electricity consumption.

What is a Bess installation?

The BESS installation is a joint venture between Ardian's ACEEF and Lappeenrannan Energia, a Finnish municipal energy company. The Mertaniemi project is expected to come online in the spring of 2025 and is located near the Mertaniemi power plant in Lappeenranta.
