# Project investment estimate for solar panels

## Overview

---

Project Sunroof is a solar calculator from Google that helps you map your roof's solar savings potential. Learn more, get an estimate and connect with providers.

Project Sunroof is a solar calculator from Google that helps you map your roof's solar savings potential. Learn more, get an estimate and connect with providers.

Use our easy ROI Calculator to estimate your return. Calculate ROI Here The average American household pays a monthly electric bill of \$118.36. When you go solar, the power generated by your solar panels replaces the electricity you buy from the utility company, reducing or completely eliminating.

Calculate solar panel savings by multiplying your system's annual electricity production (in kWh) by your local electricity rate (cents per kWh). Subtract maintenance costs and divide by installation cost to estimate payback time. Typical U.S. savings range from \$10,000 to \$30,000 over 20 years.

A Solar Panel ROI Calculator can help you determine how long it will take for your solar system to pay for itself and how much you'll save in the long run. Solar energy is one of the best ways to reduce electricity bills while contributing to a greener planet. However, the upfront costs of.
