# Replace solar panels

## Overview

---

This step-by-step guide covers removing and reinstalling home solar panels, including with the process, likely timeline, what to expect, and what's best for your investment in solar power. How are solar panels reinstalled?

The reinstallation process begins with the reinstallation of the mounting hardware. Next, we reattach the solar panels to the roof. Once the panels are in place, they are reconnected to the inverters and the electrical system. We ensure that all connections are secure and the system is properly grounded.

How much does a solar panel removal & reinstall cost?

Calculating the price of solar panel removal and reinstallation predominantly relies on your system's size, the complexity of your roof, and the status of any necessary repairs. HomeAdvisor says the average cost to remove and reinstall solar panels is between \$1,000 and \$3,000, depending on the project's complexity.

Do you need a solar panel removal service?

Solar panels are complex systems that require expert handling. Attempting to remove them yourself can damage the panels, your roof, and the electrical systems connected to the solar array. Professional solar panel removal services ensure the process is carried out safely and efficiently, preserving your investment's integrity.

How do you handle solar panel removal?

Below is a step-by-step guide on how we typically handle solar panel removal. The site must be prepared before any physical work begins. This includes disconnecting the solar panels from the electrical grid, ensuring the power is shut off, and securing the area around the panels.

Should I remove solar panels to replace roof sections?

If you need to remove solar panels to replace roof sections, having a solar

expert do the work can make the project go smoother. Additionally, roofers are rarely trained to install home solar panels and maintain solar power systems.

Do solar panels need to be replaced?

Examples of solar hardware that may need to be replaced include the following. It's safer to remove and reinstall solar panels when the weather is clear. But if the condition of your roof can't wait for the weather to be friendly, you may be required to pay more for the project to be completed on time.
