

## A-Core Container

# Russian outdoor inverter

## Overview

---

What is the market of inverters for electric vehicles in Russia?

Market of Inverters for Electric Vehicles in Russia competencies in advanced technical and technological approaches, working out technical solutions and obtaining a product with known characteristics at specific prices. Then, it is necessary to monetize this approach and hone the competencies in the development and production of our own chips.

How are inverters decomposed in Russia?

Inverters are decomposed in minute detail, specifically in terms of the critical technologies and an electronic component base that need to be developed in Russia. Creation of advanced modules for inverters in Russia is exemplified with an ongoing project of developing and establishing a production of specialized IGBT modules in MIDAbody.

What is a local inverter market?

The main areas of application are analysed and the local inverter market is investigated, specifically in electric transport, solar and wind power generation, distributed smart power systems, including energy storage systems.

Can inverters be installed outside?

As a rule, inverters designed for outdoor use may be installed either outdoors or indoors, however indoor inverters can only be installed indoors. The great majority of grid-tied or string inverters available today are designed for outdoor installation.

Can a grid-tied inverter be installed outside?

Like most electronic devices, inverters operate more efficiently at cooler temperatures. While most grid-tied inverters are designed for outside installation, they should not be mounted in direct sunlight, as this will degrade

their efficiency. In addition to the lost output, the lifetime of the unit is likely to be shortened.

### How ad-vanced inverter components meet international Stan-Dards?

A practical example of the development in Russia of ad-vanced inverter components that meet international stan-dards is the project to create a specialized IGBT module in a low-inductance MIDA body.
