# Saudi Arabia power plant energy storage project construction

## Overview

---

The Saudi Electricity Company is building two major battery energy storage projects in northern Saudi Arabia with Hithium, totaling 4 GWh of capacity. The installations will be located in Tabuk and Hail provinces and will rank among the largest BESS deployments in.

The Saudi Electricity Company is building two major battery energy storage projects in northern Saudi Arabia with Hithium, totaling 4 GWh of capacity. The installations will be located in Tabuk and Hail provinces and will rank among the largest BESS deployments in.

BYD and Saudi Electricity Company will deliver a record 15.1GWh of storage, advancing Saudi Arabia's Vision 2030 and accelerating clean energy goals. Battery storage projects play a vital role in enhancing grid stability and efficiency, making them essential for modern energy systems. Battery.

The 2 GWh battery energy storage system (BESS) features 122 prefabricated storage units, designed and supplied by China's BYD. From ESS News Saudi Arabia has officially connected its largest battery energy storage system (BESS) to the grid, marking a significant milestone in the country's renewable.

A 2GWh battery energy storage system (BESS) project has gone into operation in Saudi Arabia, according to the engineering, procurement and construction (EPC) firm which delivered it. PowerChina Hubei Engineering, a subsidiary of the Power Construction Corporation of China (PowerChina) said last.

Updated August 29, 2025: Saudi Arabia is making advances in its BESS projects as it launches one of Middle East's largest BESS deployments, a 4GWh BESS project. The nation's battery storage drive comes as HiTHIUM is commissioned with a 4 GWh BESS project in a joint venture between the Saudi.

Saudi Electricity Company (SEC) awards the contracts for Battery Energy Storage Systems (BESS) having Combined Capacity of 2,500 MW/10,000 MWh, across Saudi Arabia. Following are the project locations: The contracts are

awarded as follows: Alfano Projects awarded EPC contract for the BESS.

Saudi Arabia is rapidly emerging as one of the world's largest markets for battery energy storage systems (BESS), with over 6.2 GW of upcoming capacity and a long-term target of 48 GWh by 2030. The Kingdom has already tendered more than 26 GWh of storage projects, with over 6 GW under construction.
