Seychelles Communications Engineering Bureau 5G base station installation

Overview

What is a 5G base station?

A 5G network base-station connects other wireless devices to a central hub. A look at 5G base-station architecture includes various equipment, such as a 5G base station power amplifier, which converts signals from RF antennas to BUU cabinets (baseband unit in wireless stations).

What is the Seychelles Communications Regulatory Authority?

Seychelles Communications Regulatory Authority. “The Mandate of the Seychelles Communications Regulatory Authority established under the Communication Act 2023, is to regulate the electronic communications and Broadcasting Services”. In this document, the terms shall have the same meaning as in the Licences Act, 2010.

What challenges do 5G technology manufacturers face?

5G technology manufacturers face a challenge. With the demand for 5G coverage accelerating, it’s a race to build and deploy base-station components and antenna mast systems. Upgrading 4G base stations by software to non-standalone (NSA) 5G will still require hardware changes.

Does Airtel provide voice & data services in Seychelles?

The measurements and evaluation was undertaken from September 25 to October 31 2024 and focused on assessing the performance of voice and data services provided by Cable and Wireless (Seychelles) Ltd and Airtel (Seychelles) Ltd in multiple regions on the islands of Mahé, Praslin & La Digue.

What is a 5G small-cell antenna?

Another system involves an active antenna and passive antenna, with the passive antenna being part of the legacy network. This system reduces the cost of installation. A 5G small-cell antenna boosts the network in high-density

areas and improves capacity where demand is high.

What is a 5G Brain Center?

Often referred to as the brain center, this includes: Baseband Unit (BBU): Handles baseband signal processing. Remote Radio Unit (RRU): Converts signals to radio frequencies for transmission. Active Antenna Unit (AAU): Integrates RRU and antenna for 5G-era efficiency. 2. Power Supply System
