Should I install a solar power system

Overview

Should you install solar?

"It depends on what is motivating the household to make the decision to [install] solar," Becca Jones-Albertus, director of the US Department of Energy Solar Energy Technologies Office, told CNET. If you're looking to be 100% energy independent or live off the grid, solar could be a good way to reach those goals.

Can you get a loan to install solar panels?

You may be able to get a loan to help pay for the costs of installing solar panels. Panels start working immediately, saving you money as soon as they're installed. Cons: Solar panel installation can cost tens of thousands of dollars, and any rebates or incentives can take months to arrive. Panels require professional installation.

Where can solar panels be installed?

The roof of your home is the most common site for solar panels — but it's not the only place they can go. Homeowners who can't get rooftop solar panels can get creative and find another site. Solar panels can be installed on a carport, gazebo, or pergola.

Are solar panels right for You?

However, solar panels are not right for everyone. There are also significant changes to tax credits on the horizon that will greatly affect how much the average household has to spend on solar panels.

Will a solar panel installation save you money?

A well-planned solar panel installation should cover the costs of your electricity bill, so monthly savings will be a reflection of what you've been spending. "A copy of a recent utility bill will help a lot," says Ben Zook, the owner of Belmont Solar and a solar panel installation designer. "Electricity

costs often vary by area [and] usage type.”.

Can solar panels be installed on a roof?

Solar panels are built to work in all climates, but in some cases, rooftops may not be suitable for solar systems due to age or tree cover. If there are trees near your home that create excessive shade on your roof, rooftop panels may not be the most ideal option. The size, shape, and slope of your roof are also important factors to consider.
