Overview

This intelligent urban furniture generates its own energy entirely through a 48W solar panel and 20Ah Li-ion battery system, bringing together advanced smart city features including LED lighting, Wi-Fi access, USB charging stations, air quality monitoring, GPS positioning, and.

This intelligent urban furniture generates its own energy entirely through a 48W solar panel and 20Ah Li-ion battery system, bringing together advanced smart city features including LED lighting, Wi-Fi access, USB charging stations, air quality monitoring, GPS positioning, and.

SmartBeam Smart Solar-Powered Bench represents an innovative public space solution that provides comfortable seating combined with comprehensive digital service experience for parks, campuses, walkways, and bus stops. This intelligent urban furniture generates its own energy entirely through a 48W.

Solar benches are basically outdoor seating solutions which come with built-in solar panel technology that captures the sun's power to then distribute. The benches serve two needs: not only they are a place to sit and rest, but also it's a sustainable way for people to recharge while connecting in.

YEROO Smart Bench is a core intelligent product under YEROO Outdoor's portfolio, redefining traditional outdoor seating by integrating "basic leisure functions" with "smart technology applications." It not only provides a comfortable resting space for outdoor users but also adds practical smart.

The EnGoPlanet Smart Solar Bench is a seat designed with today's connected consumers in mind. This product is equipped with solar panels that offer power for mobile devices. This Smart Solar Bench transmits power via Hotspots or USB. The Smart Solar Bench meets the consumer demand for WiFi and.

Our city solar bench was born out of experience and the search for new, more flexible ways to present our designs. Apart from its unique looks and modern character, City is based on a modular design, making it possible to create 3 different configurations from basic elements. Its personality is.

The Eco Smart Bench is powered by solar panels. Charging devices is therefore completely free of charge. ESB LOGO The Eco Smart Bench is a simple bench with three seats, suitable for a comfortable and relaxing rest. Use the time while relaxing to charge your smartphone, GoPro or any other.
