Solar module price trends

Overview

Prices have begun to fall after a brief stabilization phase – declining by around 5% to 8% across all technology classes in recent weeks. This drop returns prices to levels seen at the beginning of the year, a range that remains unprofitable for most module producers.

Prices have begun to fall after a brief stabilization phase – declining by around 5% to 8% across all technology classes in recent weeks. This drop returns prices to levels seen at the beginning of the year, a range that remains unprofitable for most module producers.

IRENA presents solar photovoltaic module prices for a number of different technologies. Here we use the average yearly price for technologies 'Thin film a-Si/u-Si or Global Price Index (from Q4 2013)'. This data is expressed in US dollars per watt, adjusted for inflation. IRENA (2025); Nemet.

Price Stabilization After Volatility: Solar module prices have stabilized in 2025 with global wholesale prices ranging from \$0.08-\$0.28/W, ending years of dramatic fluctuations as supply-demand dynamics rebalance and weak suppliers exit the market. **TOPCon Technology Dominance:** TOPCon modules have.

Weekly spot price report for 182mm modules will be based on the 182*182-210mm format from June 2024 onwards due to the slim price gap among varying formats. Prices for Chinese project will be prices for TOPCon modules instead of PERC from April 2024 onwards. BC module prices in China will be added.

PV module prices have fallen by around 5% to 8% across all technology classes in recent weeks. says Martin Schachinger, the founder of pvXchange.com. This means that prices are moving strongly back toward the level we saw at the beginning of the year, which can only be described as unhealthy for.

Every month we publish a current price index on the development of wholesale prices of solar modules. In doing so, we differentiate between the

main technologies available on the market. Since 2009, pvXchange has provided a unique price index for the european market, which has become an invaluable.

Each presentation focuses on global and U.S. supply and demand, module and system price, investment trends and business models, and updates on U.S. government programs supporting the solar industry. Key updates from the Fall 2024 Quarterly Solar Industry Update The International Renewable Energy.
