Sophia Villa solar Panel Manufacturer

Overview

How can Sophia improve the health of solar panels?

One of SOPHIA's great contributions is the creation of a prototype that allows analyzing the state of health (SoH) of solar panels. Thanks to this system, it's possible to evaluate efficiency, detect dark areas or structural damage, and decide whether the panel should be repaired or recycled.

Where is silfab solar made?

Silfab Solar splits its production and operations between the U.S. and Canada. They have 158,000 square feet of manufacturing space between two plants, one in Toronto and the other in Bellingham, Washington. Their entire company is based in North America, from manufacturing and production to sales and customer support.

Who makes Suniva Solar cells?

Suniva is America's oldest and largest monocrystalline solar cell manufacturer in North America. Suniva was founded in 2007, out of one of the world's foremost photovoltaic research institutes, The University Center for Excellence in Photovoltaics at Georgia Tech, and from research sponsored by the U.S. Department of Energy.
