Should Southeast Asian countries invest in solar power?

A worker inspects cables at a floating solar power project in Rayong, Thailand. Southeast Asian countries have welcomed investment to produce solar equipment domestically, though this has largely been destined for export to the United States rather than supporting local capacity (Image: Wang Teng / Imago / Alamy).

Which countries will boost Southeast Asia into a major PV market?

The five major PV markets—Vietnam, Thailand, Malaysia, the Philippines, and Singapore—are set to boost Southeast Asia into a major PV market with strong policy push. Vietnam approved the long-discussed Direct Power Purchase Agreement (DPPA) on July 3, 2024, allowing electricity buyers to procure green energy via national or private grids.
