# Supply of flat-plate solar panels for self-built houses in Malta

## Overview

---

Are small house solar kits affordable?

Our small house solar kits are affordable and assembled as per your needs. Remember to shop The Inverter Store for the rest of your solar product needs, as we offer additional accessories such as mounting brackets, solar panel cables and connectors, and many more accessories to complete your off-grid home solar system today.

What is a solar flat plate water heating system?

A solar flat plate water heating system is a very simple and maintenance free way to immediately reduce your monthly energy costs. Both evacuated tube systems and flat plate solar hot water systems work in a similar manner.

Should I install a solar flat plate system?

Installing a solar flat plate system would mean significantly reducing - or eliminating - these costs. Furthermore, our solar hot water systems qualify for the Federal 30% tax credit, meaning that 30% of the installed cost of your solar hot water system is returned to you the next time you file your taxes.

Should I install a solar flat plate water collector?

Flat plate collectors are traditionally used in warmer, sunnier climates. For cooler, cloudier areas, and areas that have long, cold winters, you may wish to consider our solar evacuated tube collectors. Installing a solar flat plate water heating system for your home can reduce your energy consumption by as much as 40% to 50%.

What is a solar flat plate collector?

Solar flat plate collectors are an affordable solution to rising energy costs. Solar flat plates are long lasting, durable, and cost effective. Flat plate collectors are traditionally used in warmer, sunnier climates. For cooler, cloudier areas, and areas that have long, cold winters, you may wish to

consider our solar evacuated tube collectors.

Does sunearth make flat plate solar collectors?

SunEarth manufactures flat-plate solar collectors for residential, commercial, and industrial use. How do solar collectors work?

As flat-plate solar collectors are exposed to the sun, the plate heats up, transferring the heat. SunEarth ties everything into the plumbing system of your house.
