Overview

What are the best portable power stations?

To help you decide, I tested the efficiency, in a variety of scenarios, of the best portable power stations from Jackery, Oupes, EcoFlow, Anker, Goal Zero, Greccell, Bluetti, Dakota Lithium, Lion Energy, Vtoman, and Oupes. ↓ [Jump to the Rest of the Field](#) ↓ [What to Know Before Purchasing a Portable Power Station](#).

Why should you buy a portable power station?

Bring big backup power with you with these expert-recommended portable power stations, which can store enough power to charge electronics, appliances, and more.

Which battery is best for a portable power station?

These days most portable power stations, including all those we recommend here, use LiFePO4 batteries, which are capable of holding far more cycles, which is the number of times a battery goes through a complete discharge and recharge, than older lithium-ion batteries while also being less likely to combust.

What is the best portable power station for off-site work?

Best portable power station for on-site work With a 1070Wh, 1500W output, and UPS, during our testing this unit proved ideal for when you need a reliable and pretty powerful unit for off-site work. And this redesigned version is a lot more portable, too. Read more below 5. [Bluetti AC180T Best portable power station with swappable batteries](#).

What should you look for when buying a portable power station?

So, we know what to look for when it comes to technology for rural locations and hostile environments. We test the best portable power stations on volume, weight, battery chemistry, and additional feature sets. Before writing

any review, we try to fully understand the unit to describe each device's pros and cons best and accurately compare them.

How to choose a waterproof power station?

When choosing a waterproof power station, its durability against the elements can make all the difference in your outdoor experience. Look for a power station with a high IP rating, like IP65 or above, which ensures resistance to both dust and water. This rating is crucial for keeping your device functional in various weather conditions.
