Togo Energy Saving New Energy Storage

Overview

Togo has begun construction on a 25 MW solar plant with 36 MWh of battery storage in the country's north. China's TBEA International Engineering is leading the project, which is scheduled for completion within 13 months. An installation ceremony for the project took place last week.

Togo has begun construction on a 25 MW solar plant with 36 MWh of battery storage in the country's north. China's TBEA International Engineering is leading the project, which is scheduled for completion within 13 months. An installation ceremony for the project took place last week.

Washington, October 17, 2025 — Agence Française de Développement (AFD) and the Global Energy Alliance for People and Planet have signed a USD 200,000 contribution agreement. This agreement will finance feasibility studies for a battery energy storage system (BESS) project in Togo - a crucial step.

Togo is taking a significant leap forward in its energy transition by launching a 55 MW pilot project for battery storage. This ambitious initiative, backed by a €25 million loan from the French Development Agency (AFD) and the Global Energy Alliance for People and Planet (GEAPP), is set to.

Energy/ Togo embraces battery storage to stabilize grid and boost. As Togo intensifies its efforts to diversify its energy mix and strengthen the role of renewables in its electrical system, the authorities are now opening a new chapter: battery storage. This technological solution, still.

Togo is launching a pilot battery energy storage system (BESS) project, funded with 112 million FCFA (USD 200,000) by AFD and GEAPP. Announced in Washington during the IMF and World Bank Annual Meetings, the 55 MW project supports the national "Mission 300" plan to achieve universal electricity.

France funds 55MW energy storage pilot project in Togo, promoting 5GW of battery energy storage deployment in Africa The French Development Agency and the Global Energy Alliance Initiative have jointly invested \$200,000 to

support a battery energy storage system pilot project in the Togolese.

Brussels, Belgium - On December 4th, during the West Africa Energy Cooperation Summit in Lomé, Robert Koffi Messan Eklo, Togo's minister of Mines and Energy Resources (MMRE), and Andrea Bertello, RELP's Director of Engagement and Partnerships, signed a Cooperation Agreement formalising the.
