# Ukrainian solar home energy storage

## Overview

---

Can solar power plants help Ukrainian society?

“Solar power plants can help Ukrainian society,” Sokolovskyi says, by giving energy independence to private citizens and businesses. Moreover, support for critical infrastructure like hospitals, clinics and schools – the kind of work Semenyshyn’s Repower Ukraine does – often comes from PV and energy storage combined.

How much solar power does Ukraine have in 2024?

Figures from the Solar Energy Association of Ukraine (SEAU) earlier this year showed that the country added around 850MW of solar PV capacity in 2024, the majority of which came from self-consumption systems installed by businesses. It’s “become a trend”, Semenyshyn says.

Why are Ukrainian businesses turning to self-consumption solar PV systems?

Following three years of bombardments and damage to its energy infrastructure, Ukrainian businesses are turning to self-consumption solar PV systems to keep the lights on.

How does the war in Ukraine affect PV & storage?

The ongoing war in Ukraine has been a catalyst for PV and storage deployment. Image: Oleg Ivanov via Unsplash. When the shelling gets worse, sales of renewable energy systems increase; when it eases, demand subsides until the shelling starts again. “It’s pretty funny,” says Artem Semenyshyn, board member at RePower Ukraine Charitable Foundation.

Did Russia attack Ukraine's energy infrastructure in 2024?

Energy has been a major target for Russian drones and missiles throughout the war, with an intensification from the spring of 2024; at the time of writing, news broke overnight that Moscow had carried out a “massive” missile attack on Ukrainian energy infrastructure.

How important is agriculture in Ukraine?

The agricultural sector is a major pillar of Ukraine's economy; its 2021 agricultural exports totalled US\$27 billion; 41% of its total exports, according to the US Department of Agriculture. Beyond the economic impact at home, Ukraine's major food exports are a vital part of the international supply chain.
