

## A-Core Container

# Uzbekistan communication base station hybrid energy cabinet spot price

## Overview

---

How much renewable power does Uzbekistan have?

Uzbekistan targets 27 GW of renewable capacity by 2030, i.e., 50% more than its current installed capacity (2023). JSC "Thermal Power Plants" is the largest power utility with 70% of the total capacity. Uzbekneftegaz is the national oil and gas company. Natural gas accounts for 87% of the power mix.

How much gas does Uzbekistan have?

Uzbekistan has large gas reserves (around 867 bcm of proven reserves) and more modest oil reserves (around 81 Mt) (end of 2023). Around 80% of gas reserves are located in the Amu Darya basin in the Bukhara region. The country also has significant uranium reserves (50 Mt). Uzbekneftegaz has increased the gas prices several times.

Is Uzbekistan a middle-income country?

Uzbekistan's energy intensity is among the highest in the world but is falling rapidly (-6.5%/year since 2000). As part of its "Economic Development Vision 2030", the Government plans to transform Uzbekistan into an industrialised middle-income country by achieving a per capita income of US\$6 500 by 2030 and US\$8 500 by 2040.

Is Uzbekneftegaz a state-owned company?

Uzbekneftegaz (UNG, 99.94% state-owned) is the national oil and gas company. It was reorganised in 2019 by merging different subsidiaries in the gas and oil upstream and downstream activities. Uzbekistan has large gas reserves (around 867 bcm of proven reserves) and more modest oil reserves (around 81 Mt) (end of 2023).
