ENERGY STORAGE SYSTEM

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

The diagram shows a vertical ESS container with a central door. The door has a green handle and a lock. The container is labeled 'ESS' in green. There are two yellow warning triangles at the bottom, one on each side, indicating high voltage or other safety hazards.

Overview

TotalEnergies and Canadian Solar are boosting the future of energy storage in Europe with major projects in Germany and the UK. As the European Union accelerates its transition to renewable energy, the role of energy storage becomes increasingly critical.
