What is an outdoor dual-band smart base station

Overview

The TP-LINK Outdoor Wireless Base Station pairs professional performance with user-friendly design, making it the perfect solution for both business and home users.

The TP-LINK Outdoor Wireless Base Station pairs professional performance with user-friendly design, making it the perfect solution for both business and home users.

TP-LINK's 5GHz 300Mbps * Outdoor Wireless Base Station is specifically designed to provide an effective solution for outdoor wireless networking applications. With its centralized management platform and high degree of flexibility, it is the ideal choice for providing point-to-point.

Dual-band WiFi 7 speeds up to 3600 Mbps with MLO and 4K-QAM. WiFi 7 powering AiMesh technology boosts coverage up to 15,000 sq. ft.*, with easy extendibility and seamless connectivity for compatible ASUS routers, indoors and outdoors. Built for durability with ESD and surge protection, an IP65.

Connect over long distances with U7 Outdoor's directional super antenna, or use the included omni antennas for balanced, all-around coverage. Deliver fast, reliable WiFi to hundreds of users simultaneously—perfect for outdoor campuses, venues, and public spaces. Use the integrated directional.

Two (2) spatial streams SU-MIMO for 2.4GHz and two (2) spatial streams SUMIMO for 5GHz up to 1,774Mbps wireless data rate to a single 11ax wireless client device under both 2.4G Hz and 5GHz radio. Two (2) Multiple (MU)-MIMO for up to 574 Mbps wireless data rate to transmit to one (1) two streams.

Outdoor LTE TDD base station with dual-carrier support and 2x20W output power for private network deployments in CBRS Band 48. The manufacturer of this product does not allow it to be sold online. Please contact us by calling 800-761-3041 or using this form if you're interested in purchasing this.

WIS-S806AC is a robust outdoor dual-band wireless base station featuring 802.11ac technology for high end wireless coverage. Featuring 11ac

technology, the WIS-S806AC is ideal for hotspot applications with dual-band simultaneous coverage. The integrated 2*2 MIMO technology for 300Mbps 2.4GHz and.
