

Overview

Solar energy offers a promising solution, and Bhutan has set ambitious targets: 500 MW by 2025 and 1,000 MW by 2030. In line with these goals, a 22.38 MW solar farm is currently under construction in Sephu, while a 30 MW solar farm is planned in Bumthang district.

Solar energy offers a promising solution, and Bhutan has set ambitious targets: 500 MW by 2025 and 1,000 MW by 2030. In line with these goals, a 22.38 MW solar farm is currently under construction in Sephu, while a 30 MW solar farm is planned in Bumthang district.

Nearly all of Bhutan's electricity comes from its glacier-fed hydropower plants. In a first major step towards diversifying its energy mix, the Himalayan Kingdom initiated a 180-kW grid-tied solar photovoltaic (PV) plant in Wangdue Phodrang district. This pilot project, supported by the Government.

Bhutan has launched its National Solar Energy Roadmap, aiming to diversify its energy sources and enhance energy security as it prepares for increased electricity demand. The roadmap emphasizes solar energy as a crucial step towards achieving energy self-sufficiency by 2025, a goal that aligns with.

Bhutan Solar Initiative Project (BSIP) aims towards achieving a sustainable energy supply for Bhutan through alternative renewable energy sources of solar grid integration. About 60 De-suups have been actively involved in the six-month long project and have gained practical knowledge of.

The Department of Energy, MoENR announces the commissioning of Phase I (17.38 MWp) of the Sephu Solar Project in Sephu Gewog, Wangdue Phodrang, marking the launch of the country's first utility scale solar photovoltaic power plant implemented by the Government. Commissioning of the Phase-I of the.

The first phase of Bhutan's first utility-scale solar power project at Sephu in Wangdue Phodrang is set for completion by March next year. A utility-scale solar facility generates solar power and feeds it into the grid. The 17.38-megawatt solar farm is expected to generate around 24 million units.

What is solar power for home use in Bhutan
