The Hyundai OJ Series DualMax Pro 595W Commercial Solar Module combines practical design with proven bifacial technology, making it a reliable choice for commercial installations. With its dual-sided power generation capability providing up to 25% additional energy yield and a front-side efficiency.

Each of the panel's 156 cells is only half the size of a traditional solar cell. This grants HiS-S595 lower resistive losses and better shade tolerance. The efficiency of this model reaches 22.5% — well above the market's average. And while conventional panels use only one side to absorb photons.
