Bluetti is committed to offering dependable, powerful and long-lasting power sources for outdoor adventurers, recreational activities, and any emergency situation. We is known for quality and durability, providing customers with a dependable source of energy when they need it most. With a mission.

All New Yorkers can save with renewable energy from the sun. Whether you own or rent your home, live in an apartment, house, or condo, have an older home or a brand-new build, there's an affordable way to power your home with solar energy. Ready to get started?

Rooftop solar is the most common.

Take control of your energy costs with solar power. Solar panels generate “free” electricity, but installing a system still costs money. A typical American household needs a 10-kilowatt (kW) system to adequately power their home, which costs \$28,241 in 2025. That price effectively drops to \$19,873.

Thinking about going solar?

In New York, you'll need a 12.28 kW system to match the average electric bill. It'll cost you around \$23,874 after the federal tax credit. Some states, towns, and utility companies offer incentives that can help lower the cost of solar. Compare multiple offers and save.

Generate your own clean energy from the sun for free with solar. Add Powerwall to store your energy for use anytime you need it. Flexible financing and low monthly lease options can help you secure the best price for your solar system. By installing solar panels, you can also reduce your reliance.

Fill out the form to get the best bids from solar contractors in your area. If you think about installing solar panels, New York is a nice state for that. There's always enough sunshine to cover your basic energy needs or at least to reduce your monthly electricity bill. The 26% Federal Solar Tax.
