This directory contains contact information on Energy Services Companies (ESCOs) that have met the Commission's and utility requirements to provide energy supply for residential electricity or natural gas, and other services in New York. The Public Service Commission has been critical of certain.

The following energy suppliers are authorized to sell energy in our service area. Some of these energy suppliers may not currently be enrolling customers, but want to remain on our list. Since they have complied with PSC and National Grid's requirements to be an energy supplier, we do include them.

The suppliers listed below have electricity supply offers for NYSEG customers. Participating suppliers have met certain requirements set forth by the New York State Public Service Commission (PSC), the New York Independent System Operator (ISO, the group that operates the wholesale market) and.

Locate your Major or National Account representative for EEI Member companies. Search by Last Name, Company Name, or State. EEI Members may edit the directory. Company Select Company . AES Indiana AES Ohio Alaska Electric Light and Power Company Ameren Illinois Ameren Missouri American Electric. What is an energy service company?

Energy service companies are corporations that compete to sell you electricity and natural gas. They must be registered with the New York State Public Service Commission and act solely as the energy supplier—we remain the

energy delivery company.

Do energy service companies work for O&R?

These energy service companies have met the eligibility requirements established by the New York State Public Service Commission and indicated their intention to serve our NY customers. They don't work for or represent O&R. Remember: It's your energy, your choice. You're under no obligation to switch or choose an energy service company.

Why should I Choose an energy service company?

Some of these companies may offer a lower price for energy (these prices can fluctuate), or they may offer green energy from renewable sources like wind, solar, and hydroelectric power. If you choose an energy service company, we will still deliver the electricity and/or natural gas to you.

What are energy service companies (ESCOs)?

Energy service companies (ESCOs) supply electricity and natural gas to homes and businesses throughout New York. Some of these companies may offer a lower price for energy (these prices can fluctuate), or they may offer green energy from renewable sources like wind, solar, and hydroelectric power.

Do I need to switch or choose an energy service company?

Remember: It's your energy, your choice. You're under no obligation to switch or choose an energy service company. For service in New York, we encourage you to shop around through our eBids program (forthcoming), or by contacting individual energy service companies for service information and pricing options.

How do I get energy service in New York?

For service in New York, we encourage you to shop around through our eBids program (forthcoming), or by contacting individual energy service companies for service information and pricing options. If you choose an energy service company for your electricity or natural gas, they'll ask you for your O&R account number to enroll.
